

# **ABHIJITH S**

Cybersecurity Fresher | VAPT Trainee

Abhi (H), Bharatheepuram P.O, 11th Mile, Kollam, Kerala, India

+91 7025800579 | abhijiths2212@gmail.com

LinkedIn: [https:// www.linkedin.com/in/abhijith-s-3U5b88280/](https://www.linkedin.com/in/abhijith-s-3U5b88280/)

## **CAREER OBJECTIVE**

Entry-level Cybersecurity professional with hands-on experience in Vulnerability Assessment and Penetration Testing (VAPT), cyber-attack simulation, and incident response. Proficient in Kali Linux tools including Nmap, Metasploit, Burp Suite, and Wireshark for identifying and mitigating security threats. Passionate about cybersecurity, with a creative edge in content creation, visual storytelling, cinematography, and, seeking to contribute to organizational security and resilience.

## **EDUCATION**

B.Sc. Cyber Forensic (3rd Year) |St. Antony's College, Peruvanthanam

Higher Secondary (Plus Two) |SNHSS, Chithara, Kollam

## **TECHNICAL SKILLS**

Technical Skills: Linux (Kali Linux), Nmap, Burp Suite, Wireshark, Metasploit, Better cap, Vulnerability Assessment and Penetration Testing (VAPT), network scanning and reconnaissance, web application security testing, cyber-attack simulation, Python, JavaScript, React.js, Next.js, MERN Stack (MongoDB, Express.js, React, Node.js), MongoDB, MySQL, SQLite, GitHub, basic system hardening, command-line operations, technical content creation, videography, video editing, Adobe Premiere Pro, Cap Cut, Alight motion.

## **SOFT SKILLS**

Fast Learner, Analytical Thinking, Problem Solving, Team Collaboration, Time Management, Adaptability, Decision Making, Creativity and Visual Communication

## **CERTIFICATIONS**

- Certified Cybersecurity Analyst – Red Team Hacker Academy (2024)
- VAPT Internship – Red Team Hacker Academy (2024)

## **ADDITIONAL ACADEMICS**

AI for Students: Build Your Own Generative AI Model |NxtWave™|June 2025

CISRT Project | Xebjus |September 2025

Workshop on Adobe Premiere Pro |November 2025

Cyber Bullying Detection and Sentiment Analysis System |Allievo |December 2025

## **INTERNSHIPS & PROJECTS**

### **VAPT Internship – Red Team Hacker Academy (15 Days)**

- Conducted port and service scanning using Nmap
- Monitored and analyzed network traffic using Wireshark

### **CISRT Project – Xebjus (15 Days)**

- Performed SQL injection and brute-force attack simulations
- Participated in cybersecurity analyst training and response drills

### **Cyber Incident Simulation & Response Trainer**

- Developed an interactive training platform simulating real-world cyber attacks
- Implemented attack simulation, incident tracking, and response automation modules
- Tech Stack: Python, Django, HTML, CSS, JavaScript, SQLite

### **Cyber Bullying Detection and Sentiment Analysis System – ALLIEVO Learning Centre (30 Days)**

- Developed a MERN-stack cyber bullying detection system with real-time sentiment analysis
- Built a full-stack MERN application using NLP-based sentiment and toxicity classification
- Implemented a web application for real-time cyber bullying detection using machine learning.

## **INTEREST AREAS**

Ethical Hacking, Threat Intelligence, Incident Response, Videography and Cinematography, Video Editing and Visual Storytelling, Content Creation and Post-Production, Creative Media Production
